4. If use is for: N. A.
(a) Irrigation (state number of acres to be irrigated) _____
(b) Stockwater (state number and kinds of animals to be watered) _____
(c) Other use (describe fully under "No. 11. Remarks") _____
(d) Power:
(1) Horsepower developed _____
(2) Point of return of water to stream _____
5. The water is to be diverted from its source at the following point: area to be drilled to
determine point of diversion.
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.
6. Place of use water will be used on plant to process saline minerals
Describe by legal subdivision, if on unsurveyed land it should be so stated.
probable location on Section 34, Twp. 2S, Range 39E.
7. Use will begin about continuous and end about _____, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) water will be pumped to plant
location and use in heat exchangers through pipes.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works..... Estimated cost of plant, \$750,000.00
10. Estimated time required to construct works..... 2 years
11. Remarks The Applicant holds permits to prospect for Sodium on the described lands and is currently in process of drill exploration elsewhere in the area. To protect the investment, water rights must be obtained even though drill explorat8on for development will not be made for several months on water sources requested. Special consideration is therefore requested. Survey data will follow.
